

March 1985

Dear Family and Friends,

URGENT PRAYER REQUEST

Kyle, six months old, has had over ten ear infections in four months. He has been to five doctors and has been treated with six different antibiotics, all to no avail. Doctors recommended that Kyle be flown to America immediately for further treatment.

This meant rushing to get permission for Grace, Kyle and Kara to leave Ethiopia. Letters of release from the bank, police department, three levels of security and other officials had to be obtained to get exit visas.

The whole Mission has been praying for God's perfect will in this matter.

After booking international flights to World Vision had a flight scheduled to the U. S., we received word that arrive in Addis Ababa filled with emergency aid for the drought in Ethiopia. It was to return to Miami empty on the day we needed it for our emergency. Tomorrow Grace, Kyle and Kara will board this direct flight to Miami-Free! Rejoice with us in God's timing and His goodness.

Grace will be home for about one month. The first two weeks will be in Jacksonville, Florida at her parents home. It is here where Kyle will receive his treatment, most likely tubes inserted into his ears. Other time will be spent with Bill's folks in Asheville, NC.

The time will be short. Grace would love to hear from you!!!

Remember to pray for Bill as he takes care of Ryan. And remember Drew as he finishes up his first term at school.

Thanks for standing with us in this need.

Warmly, in Christ,

Bill & Grace
